NOTE: This data was drawn from performance reports submitted to OEO by the 105 nonprofit organizations and three units of local government operating 133 facilities in 52 counties that received ESG funding during												
include information from those organizations and units of local government in the 52 counties that did not receive ESG funding in FY 2003 nor does it contain any information from homeless facilities operating the state's remaining 48 counties during that period.												
Therefore, this information should not be viewed or presented as a complete count of the state's homeless population or as a complete listing of homeless facilities in the state. Further, it should also be noted that approximately 30% of the nonprofit organizations that received ESG funding during the period were domestic violence centers. As a result, the number of persons citing domestic violence as their primary cause of homelessness is disproportionately higher than the number of persons reporting other causes.
